THE MOUNTAIN.

From lands of sunshine gay with bloom We look the northern course and came To that great city which delights Grim satire in Scattle's neme.

A remain weak, his people take
The crumbs that from her table fall;
The past is theirs, the future hers
Who crowda them hership to the wall.

Proudly she elts upon her hills, Her various waters gleaming round; Her enowy crested mountains fair, Noft mirrored in their bina profound. But one, the top and crown of all,

Iligh searing far above the rest, lid in impenetrable clouds It is towering head, his ample breast. But, oh, at length a morning dawned, One more divine earth never knew, When better for than tale or dream

The mountain! All the snowy peaks
Which mountains seemed the day before
That day were little hills, so high
We saw the highest climb and soar.

So high! So grand! And yet with all So sweetly, deficately fair. Wa had believed if one had said, "A dream, a phantom of the air."

And as the perfect day went by More dreumlike still the mountain grow As gathering mists, a purple sone, Around his base their vesture drew

All white and pure from grown to foot
There floated in the asure deep
A hill of heaven, a mount of God.
It made our hearts with gladness leap. The things of sense are types of sonl.
Ilow oft for many days the best
Is thick involved in clouds that chill
Man's heart within his lonely breast

And then there comes a day of days, And floating bright in heevenly air He sees the mount of God, all white With fields of faith and founts of praye

And by that glorious vision blest
Hoknows the peace that passeth thou
God folds him to his heart. His good
Is better than the best he sought.

NOT IN THE BOOK.

I was sitting in a tiny shoeshey perched high and dry on the sea wall, watching my friend, the "cap"n," atitch shoes-little children's shoes. I called him "cap'n" by way of compliment, this queer old fellow with his bald pate and oily, mackerel face. Truth to tell, I doubt his having arrived even to the dignity of male, and it was many a long year since his desertion of the Mary Lib and her crew for the safer but less lucra-

tive occupation of making shoes.

The bay before as glinted and sparkled beneath the pale, enalit sky like a moneter dinmond, and away to the left stretched the green waters of the Atlantie, mysteriens and enchanting. "Did yeh know that some summe

folks had bought the Islan?" casually remarked the cap'n as he paused to rewax and roll his thread. "Which island?" I proceeded to inquire, for there were some half dozen

rock heaps dotting the bay.
"Why-er, the one alongside of Jilly's pint, with the dear little trees on et. See 'em?"

"Oh, you mean 'Pirate's isle'!"
"Well, I never heerd et called thet." This was too much. I drew a yellow covered guidebook from my pocket and triumphantly read:

"Pirato's Isle." A small island off Jilly's point, noted for having been the resort of pirates before and after the Revolution. The house is etill etanding from which old Hichborn and his gang were roused by the government inspectors in 1790.

"Gorry, yeh den't say! Wery cur'ous, 'canse my gran'ther bnilt thet house, 'nd he warn't no pirate. Leastways, I never heerd of his bein. He only fished off the Gran banks." And the cap'n favored me with a prodigions wink—a wink of exultation at my defeat and delight at putting my book in the lie. It was not the first time he had done this, and ln disgust I tossed the poor paper thing through the open window into the sea. Henceforth the cap'n shenld be my only

A mighty wave, chancing to dash against the red brown rocks below, sent against the red brown rocks below, sent up a sancy wreath of spray to sprinkle our faces with salt drops. The cap'n looked up from his work and regarded admiringly his old time enemy, Father Ocean, and musing apostrophised:

"'I'm waiting, cap'n," was the only response." And quietly at first, with many a panse for a long pull at his clay pipe, but with ever increasing emotion, he related the following story, which has

hanned me ever since:

"Et were 16 year ago come this fall thet a big feller, named Sam Weston, come ashoro with wife 'nd little nn. He were mate on the Breezy, a fishin wessel bound fer 'the banks. He come to father 'nd said: 'Will yeh rent me thet liter' and said: 'Will yeh rent me the said: 'Will yeh rent me t

The Varied Value of Sliver. Silver, in its relative commercial value to gold, has varied greatly at different times since the two metals were first need for coins. In the days of Abraham the patriarch It was 8 to 1; B. C. 1000, it was 12 to 1; B. C. 500, 18 to 1, and at the beginning of the Christlan era, about 9 to 1. In the year 500 A. D. it was 18 to 1, in 1100 it was 8 to 1, and at the time of the discovery of America only 7 to 1.

In the year 1500 gold was only six times more valuable than the preclous white metal, and within the next 100 years two pounds of silver could be exchanged evenly for one of gold. In 1616 gold was again on the boom, being 10 times more valuable than its paler brother, and in 1725 it was 13 times more valnable than silver, just as it was 500 years B. C. At the beginning of the present century silver was at a lower figure than it had been at any time since the year 500 A. D.—viz, 15.98 to 1. In 1876 the ratio (commercial) of silver to gold was 20 to 1, and in 1892 it was at the lowest point It has ever reached since the discovery of America—24.24 to 1. The fignres for the present year are wanting.-St. Louis Republic.

Woman's Suffrage. The social arena is now being greatiy agitated over the question of woman's saffrage, and political strife is being carried on in all parts of this broad domain of ours, in regard to whether women shall be allowed the right of elective franchise, whether she shall have equai rights and privileges with men. Women are demanding this, not all of them, but a few who have been flattered into the beilef that they can cope with men in

truth nor justice, and it will be one of the greatest curses to mankind that probably the world has ever known, if such a thing were to occur.

Did not God when Hecreated Adam and put him in the Garden of Eden make him ruler over all living things therein? Then when lie created Evc. did Ile ever say that she too shall Willie Cole 95, Henry Dye 97, Redrule? Did He say that she should ford Bean 99, Clarence Armendt 99 should be his God, that he should should follow? Women far excel men in some things, but she does not | Cole 88, Fred Crawford 94, Ida Midwin his respect and admiration by her superiority, but by her pure, maidenly modesty. We know women have the right to live, the right to ilberty, the right to hold property, and we furthermore believe she has not man by her.

Supposing the question to be right. is women qualified to take a man's place as a politician? Her qualifications may be all right, but has she strength or will power to go through with what he must undergo? We do not consider her mental qualifications inferior to that of man; for if he is a tower of strength "she is a thing ol joy and beauty. If he is brave she wins as much by her diffidence as he he holds the reins of justice in his hands, and makes us tremble at the sound of his voice, she is the sweet angel of mercy who speaks peace to our troubled spirits. She has been described as being a fair fragile flower, and man as a strong and mighty mind, able to bear the torms and trials of life, which seems so well adapted to his pecular make-up.

Women may as we have said possess the rare insight as to how a Nation should be governed. Yet she cannot be qualified to do what God has assigned man. Shame on the woman who would step down and out of the spere in which God has placed her, to shoulders. Is she brave enough to face the artillery of death? Can she undertake the cares and responsibilities or political strife or the intricate difficulties of jurisprudence?

We do not think her bravery when put to a test will lead her into such fields of tame. There are a few who could and would undergo these trials, but we mean the majority of the women of to-day could not nor would not be a Joan of Arc or a Mary Walker, of Baltimore. We believe that Woman's Rights are essential to every regulated government. Not her right as a politician, no, a thousand times no! Not her right to go to the polls and vote or to engage in political strife in any way shape or iorm. But her right as a wife, a mother or a sister around the fireside, in the dear home circle, to make home bright and attractive, and her right as a mother should be looked upon with reverence and awe, for the mother by her influence moulds the mind of her boy; she forms his character and imbibes in him truths that go to make up the true man. She fits him for the part he will play in the drama of life when he becomes a part of the Nation's political wellare.

It has been well said the hand that rocks the cradie, is the hund that rules the world. Don't understand me to mean she rules from a politicai standpoint, but by her purity and her womanly modesty, and the nobie principles that she has instilled into the mind of her boy. She has a right to be well read, and then if she wants world; let her teach her boys or her brothers until they shall take neither the one side nor the other, until they have thoroughly investigated each party and understand the science upon which they are based-then let conscience be their guide in choosing and make them feei their "vote is as sacred as their honor."

If women were to engage in politics, what would become of the home circle that is so sacred to every true heart? It would be dangerous to every household in the iand, the wife would at once assert her superiority, thus causing disagreement and conflict. How any true pure woman can figure in polititicai strife, can go upon the piatform and make a speech, can canvass for an office, is one of the mysteries I cannot solve? It seems to me that when she goes on the platiorm, she is degrading both herseif and her sex, she looses that timid shrinking modesty, the charm which characterizes her sex, which God has so beautiluily given her, as a halo that surrounds her and shields her from the tumuit of a cruel and malicious world, and she looses the respect of her fellow-belngs, and the admiration which is justly hers, for no person can or will have the same true, refined, delicate feeling for a lady who has figured in public ilfe.

But this question which is so Inll of peril to our hearts, our homes, our

based on truth and justice, they will civilization and our religion, had best prevail and stand the test of the age. | be left alone, until the good can be But we feel as though this new theory separated from the evil. Then if which is so agitating the minds of the women want their rights we will give people of to-day, is neither based on the question another consideration. LUCILE LYNN.

GIVE us back the morning mail. Good morning, Senator Taylor. BUTLER county went Republican

TAYLOR is a runner from 'way

WHAT has gone with Tom Smith's old time majorities? WHITTAKER has the appearance of

being very badly Taylored. THE race in Grayson county wa the closest in a number of years.

WHATEVER Obio county lacked Obio State made up a thousaud fold.

HAD this been a Presidential year the country would have gone almost as solidly Republican as it did Democratic last year.

Mckinley was re-elected Governor of Ohio by 80,000 insjority. He will no doubt be the Republican candidste for President in 1896,

THE corrupt Judge Maynard, whom the Democrats attempted to foist upou the people of New York was overwhelmingly defeated.

MR. F. W. PIRTLE, against overwheiming odds, made a strong fight. He was never in the race from start to finish but be fought on just the saiue.

No correct rhturns could be had from Butler and Mublenberg as regards the Senatorial race, but the indications are that Taylor's majority will not be less than 450.

NEW YORK, Massachusetts and Iowa went Republican Tuesday. This with the Ohio election is a very emphatic rebuke to the Demccratic Administration with its record of panic and ruiu.

in 1890 the total vote for this county was about 5,000, this year about 3,300. In view of the disparity betweeu these totals we are constrained to ask, "where were these other fellows at?"

It is much to be desired that the new Board of Trustees will require the huilding of brick walks. The plank walks are more expensive aud in their present condition on some streets, are a disgrace to the town.

THE Republicans of Muhlenberg elected "Wal" Lewis Tuesday as Superintendent. is an able an efficient teacher, fully abreast of the times, and we predict for him a successful administratiou.

THE defeated Republican candi dates made a good fight and with a more active interest in the party would have won in a canter. They retain the bigh confidence the people bave ever reposed in them and to the will of the people bow a graceful submission.

MR. C. S. TAYLOR made a gallaut fight and won by a large majority, carrying two of the three counties and runuing far ahead of his ticket in this county. He is an excellent man, and will make an excellent represcarative. The District will be proud of her Senator.

THE attention of the people is call ed to the circular letter from the State Board of Health published in another column. The people are notified of tho existence of small pox in Indiana, Ohio and Pennsylvauia, aud warued to take proper steps for the prevention of the disease in this State.

Tue folks who signed the petitiou last spring to have the early mail discontinued now see their folly. The mail is discontinued and they didn't "miss the water till the well ran dry." The early mail was the most important one of the three and its discontinuance is a great inconvenience to the people. An effort should be made at once to have it reinstated.

MR T. J. SMITH will represent Ohio county in the next Legislature. He is, as The Republican stated at the time of his nomination, well qualified for the place, and the people join in wishing that be may play a good part as a law-maker But as is usual with Democratic members of Democratic Legislatures in Kentucky the chances are that he will come home from the session as dead politically as it is possible to conecive.

Our Muhlenberg, true to her interests, re-elected Dr. A. D. James to the Legislature on Tuesday. This is as it should be. Dr. James is an able man, eminently qualified to fill the maportant post and the county bonors herself in being represented so worthily. Almost the only argument offered against him by his opponents was the flimsy objection that he had resigned his place in the last, Legislature to accept the position of World's | at this place, has more orders for lum-Fair Commissioner. Merely a silly acknowledgment on the part of the Democrats that no objections worthy fine Hotel at this place and will move 9:30 and expect a full attendance of the rame could be offered a, ainst him

total vote of Ohio county by precincte. A careful study of the table will furnish food for thought, and we advise all Republicans to study it. Tis true the Democracy carried our county electing their entire ticket so far as this county is concerned, but we make a showing in several precincts which points to the election of our entire ticket next year. By a glance at the table Democrats may learn a thing or two also. The People's Party vote was not as large as it was 1 and 2 years ago, yet it shows a strength not to be ignored by the thinking people. Both old parties polled a very small vote. See table clsewhere.

ZEB SHULTZ was elected School Superintendent Tuesday. He will enter upon the duties of the office on the second Monday in next August, at which time the present term expires. THE REPUBLICAN wisbes bim a successful term and while it supported another for the position to which be has been chosen, it will labor with the same zeal for the advancement of the great cause of education. He will make an earnest aud faithful olficer and we hope to see the schools enjoy continued prosperity. To this end, Zeb, you will ever find The Re-PUBLICAN laboring, and when you are fighting for the schools it will always stand by you. But between now and the beginning of your official career you had as well be practicing and demally for you will have occasion for a hour. very extensive use of that commodity. You will no doubt think before you are through that you are the most roundly and soundly abused mortal that was ever so unfortunate as to have an existence in the world. But that will not be true, Zeb. All who isithfully and fearlessly fill that laborious and most important position are treated to the same avalanche of abuse. So, git ready.

Election Notes. The presence in the Republican camp of that old scoundrel General Apathy, is the main cause of the defeat of the Republican candidates though there are other causes by no means insignificant. With proper exertion and activity on the part of Republicans generally, both our candidates could have been elected.

The Democrats do not propose to abide by the new election law, but continue their old time custom ol 'boodling' and 'liquoring' the "floaters." This was carried on in the flartford precincts many of the day. colored voters were bought to vote Democratic straight and others were hired to stay away from the polls. Hence the big Democratic majority

Within the last six years, the Republicans have at one time or another carried every precinct in the county but two, Buford and Ellis. Only a few years ago it was not uncommon for Fordsville to give 100 Democratic majority. Tuesday it gave Taylor a majority of 66. The light!

the light! Shreve went Republican Tuesday for the first time in her history. Hurrah for Shreve!

Awtry received as many votes in his home precinct as both his opponents combined. But Smith didn't do as much in his precinct hy a good

Tuesday's election demonstrates more forcibly than ever that the sentiment of the county is cearly Republican if fully expressed. The Democrats left nothing undone, either fair or foul that would further the interests of their candidates and yet they

were harely able to win. Almost a full outfit of county officers are to be elected next year, and with the increased interest that will bring and a good strong pull all along the line Ohio county will shake off the thraldom of Democracy and

wheel into the Republican column. Whittaker received a bigger vote in Hartford than did Smith.

Ask Your Friends Wito have taken Hood's Sarsaparilla what they think of it, and the replies will be positive in its favor. Simply what flood's Sarsaparilla does, that tells the story of its merit. One has been cured of indigestion or dyspepsia another finds it's indispensable for sich headache or biliousness, while others report remarkable cures of scrofula, catarrh, rheumatism, salt

Warning Against Small-Pox. STATE BOARD OF HEALTH OF KEN-) TUCKY, BOWLING GREEN, KY.,

November 4, 1833.) TO THE HEALTH OFFICIALS, PHYSI-HANS AND PROPLE OF KENTUCKY: -This Board has received official information of the existence of small-pox in many sections of this country, particularly in Indians, Ohio and Pennsylvania. It also prevails extensivly in Europe, and manifests an unusual tendency everywhere to break over official control and assume an epidemic form.

This Board, therefore, feels it to be its duty to warn the people that decisive action should at ones be taken to protect the State from this loathsome malady. Fortunately the method of prevention is as certain in Its action as it is cheap and easy to obtain. Vaccination and re-vacclustion, properly done, with reliable virus, is a certain proventive, and is entirely free from danger. This is the conclusion of the scientific world, after full investigation and large experience, and may be thoroughly re-

lied npon. Notwithstanding that this safe, chea, and perfect protection is within the reach of all, it is estimated that nearly one-third of the people of this State have never availed the:nselves of it Intelligent persons should not wait for the law to force them to an evident duty. No one should allow himself, or any one for whom he is reason sible, to remain unvaccinated at any time, and especially in the face of the present danger. Health and school boards, everywhere, should co-operate in reonfring vaccination as a condition of admission to all schools, public and private, and the proprietors of manufactories and railroads should make the same requirement of their employees. The operation should always be done by a competent physician, at three points in the same arm, and the person vaccinated should be seen by him from time to time that he may know that a perfect result has been secured. Imperfect vaccination can only give rise to a false and often fatal sense of security.

By the promptness and efficiency of several of our county boards in former years, the disease was easily stamped out. In other counties no such precantions were taken at the outset, and the disease was only checked after serions loss of life, great interference with business, from the panic incident to an epidemie of this disease, and an expenditure of money, twhich, if judicloualy used in aystematic vaccination beforehand, would have given perfect immunity to every citizen in the commnuity. Here, as in many other things, an onnce of preventiou is uot only better but theaper than a pound of cure.

In this, and all other matters pertaining to the public health, the State Board holds itself in readiness to asaist the local boards to the full extent of its powers; and all physicians of the Daniel? State are requested to promptly notify their local boards of health of the first ontbreak of this or any other con'agious disease in their respective communities. PINORNEY THOMPSON, M. D., Pres.

> A Good Citteen Gone. On Monday night at 10'30 o'clock, Preston Ross, a leading citizen of our town breathed his last. This was not a great surprise to many of his intimate friends and relatives, for they knew he had suffered from rheumatism of the heart for years and would probably be taken away at any time, yet notwithstanding this, our people were not prepared to give him up A shadow of gloom could be seen on the countenance of every good citlzen when the news that "Press Ross is dead" became public. Mr. Ross was the oldest son of Thomas M. and Ann Ross and was fifty-one years of age, He was married to Martha Bean, daughter of Rev.

G. J. Bean, December 8, 1867 and she with her two daughters, Flora and Mamie, survive him. "Press," as he was familiarly called, has been known as one of the most progressive farmers and best business men of our county, since his carly manhood, and as such he will

be missed by our whole people who sympathize with his sorrowing family and relatives in their sadbereavement, for we will all miss him, whose honesty and uprightness was never called in question by those who knew him. Services were conducted by Rev.

"Sweet Charity." In the Artists Exhibition of 1893 at the New York Academy of Design, there was exhibited an oil-painting by J. L. G. Ferris, entitled "Sweet Charty." Its richness of coloring commanded instant attention, while the lessons it taught were so impressive that one naturally turned to it

for a second view. Its subject is a young lady of colonial times who is on an errand to one of the poorer families of the town. She has a sensible, - charming face, which expresses with remarkable fidelity the sentiment of her errand. There is not a home that this picture will not ornament. It must be seen to be appreciated.

THE BOOMHOUSE MAN.

What appeals to me as my most interesting experience as a writer occurred a winter or two ago ln a little lumber hamlet of the hill region of Kentucky. For a moment at least It was quite thrilling-rather too thrilling indeed to be useful as material to me with my straight and simple art standards. I have a groveling fondness for reproducing only the usual features of life, and this little episode, though it was pltifully commonplace in its setting, had about it something that was not only musual, but nearly sublime.

I had gene down to the village in question with the ambitious design of seeing a "tide" in the river. Tides are peculiar to wintry months. They are useful to lumbermen and incidentally to writers, but they have their unpleasant features. My little hill hamlet, having doffed Its green livery, was cowled in dark mud. Rain sheeted the nir. The lnn seemed to he saturated, and the roar of the river on the skirts of the town corroborated the innkeeper's assurance concerning the magnitude of the speclul "tide" which

was in progress. "She's booming for all that's in her," declared the lankeeper, an elderly man, who had enjoyed during the previous snmmer the happy privilege of being useful to me in many ways. "They look for the boom to bust tonight. Thousands of dollars afloat. You see that man by the stove? He's one of the big timber fellers from up north. Just como dewn. He'll lose heavy If she busts. Say, miss, take a look at that feller! You remember me telling you about tho boomhouse man's daughter? Well, that feller-he was the man-he was Idy's

beau." I remembered tho story. On a certain day in the previous June I was standing at the hend of a mill chute leeking down at the snuken river. Suddenly a dugout shot round the bend. The man in the rude thing seemed only half human. He was bent and shrunken, with a clay colored skin, matted red hair and such a woebegone vacuity of face as startled one. The innkeeper had related that this poor creature lived nlene in tho boomhouse, a shed on the river cliff, and that his dnty was to cook fer the loggers in time of tides.

'He's seen trouble," said the er. ''Used to own a nice little farm up yonder and livo well. He had an only daughter. Pretty as a peach, Idy was. Slim waisted, with kinky red hair and big eyes. He sat store by Idy. Nothing was too good for her. And one summer uson of one of the mill ewners was down here settling up the mill books, and he took a fancy to Idy, and folks said It'd be a match. The boomhouse man was proud as a peafewl. And aftor the young feller went north again. why, Idy's paw he narrated around that the wedding was to come off on Christmas day and how't Idy was going up north to live in great style. But the young feller nover came back. He nover camo back," repeated the innkeeper, with a graphle sort of pause. "And Idy -well, I always said If she'd of had a mother things would have been different. I always said she took the best way out of it. For 'bout the time tongues was beginning to wag Idy was missing one day, and they found her tangled up In the river drift yonder where the sandbar reaches across the shallows."

"And what did her father do?" "Do? Oh, he acted like he'd got it between the eyes. Kind of daft. Aln't been just right ever since." This tragic narrativo, which the lnnkeeper related with the equanlmity of

an epic poet, recurred to 100 vividly as I observed the man by the stove. He was middle aged. The story lay 15 years behind him, but he had a chin which made me believe the lunkeeper an

Its whole freshet swollen current flamed with red from countless fire baskets and lanterns. Long shafts of vermilion stabbed the packed timber in the boom, struck across the climbing banks and made fiery lances of the pike poles in the loggers's hands.

Men were leaping about on the logs. In a flare of crimson I saw on the wedged in Hoat the man who had been Ida's lover. He was working sturdily as any logman about, handling the heavy cables and shouting directions.

It was worth seeing, that menutain stream as it mouthed at the straining timber in the boom. It was worth seeing but the air was cold and wet, and in the second hour of our watching the hmkeepers daughter, being upheld by neither hospitality nor umbition, besought me to accompany her to the boomhouse for the purpose of getting "thored out."

The boomhouse showed its little red window just below us on the rocks. The two tiny rooms of the place looked warm and bright as we opened

In a series of interviews with members of the last Congress, 31 out of 43 remarked that they were readers of the Youth's Companion. For elefinite and trustworthy information on the questions of the day it is really unique, while the high character of its stories, the wide fields covered by its special articles, and its contributions trom the most famous writers in America and Europe, are well known.

Its program for next year seems brighter than ever. Some of the importantistories are: "The Deserter," by Harold Frederic; a Tale of the great mutiny in India, by Sara Jeanette Dunean; several romances of the Sea, by W. Clark Russell; Tales of War, and the Frontier in early Days. Henry M. Stanley contributes 'two thrilling stories from darkest Africa, and Archibald Forbes writes of his "Closest Call." UNION GHOVE, Oct 30-Elder Robt. J. Brandon closed one of the most successful meetings ever conducted at this place last week. The meeting began on the 16th and resulted in thirty-five additions to the church and a general great rejoicing among the hrethren. Great good has been accombished and we hope the good work may go on and that we may all live better christians in the future than we have in the past. May those young brethren and sisters who have obeyed the command to "repent and be baptized for the remission of sins," continue steadfast in the Apostle's doctrine that finally we may all be in that mighty throng that John saw that no man could number, walking the streets of light, having washed their robes and made them white in the blood of the Lamb. My prayer is, that we may all be faithful unto the end, that finally we may lay down the cross and pick up the crown

"A story is told of a lady school teacher, teaching not a thousand miles from this city, who having an inordiing was in piogress in a hoop shop nate dread of contagious disease, sent a little girl home because she said her mother was sick and had symptoms of something alarming. The next day she presented herself at school with her tinger in her mouth and her bonnet swinging by the strings, and said: 'We've got a little baby at our house but mamma 'told me to tell you that it isn't catchin'.' The teacher blushed and said she was very glad, and told-the pupil to take
